The Three Domain Framework

Reviewing Prework

What is one thing you've learned and taken back to your health center over the last 5 months of COrHT?

Renewed vigor around
medical dental
integration

Caries risk assessments for
children and adults

How to use data from the
caries risk assessment

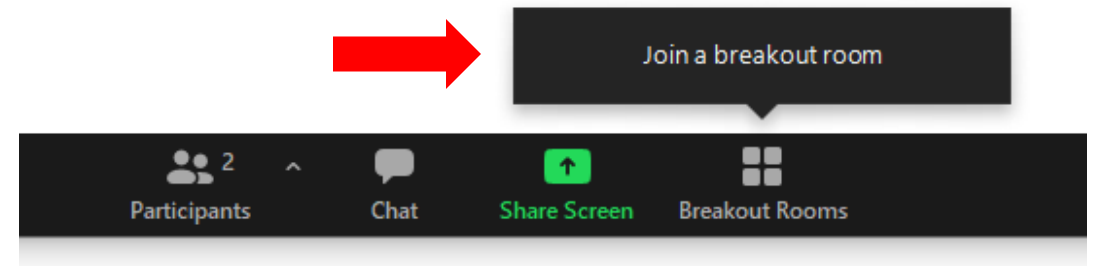

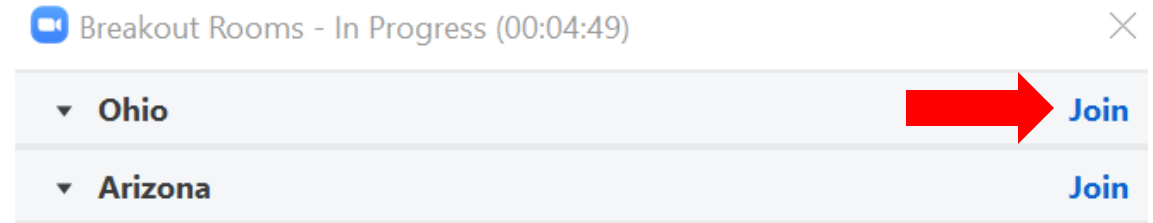

Applying techniques in
minimally invasive dentistry

Increased awareness
of risk within team

Breakout Rooms

Breakout Room Instructions

1. In a moment a breakout room pop-up will appear. Please join your states breakout room by clicking **Join**.
2. If the pop-up does not appear automatically, you can access the breakout room feature by selecting "breakout rooms" from your tool bar.

Share Outs

Discussion: Sustaining Changes

Discussion: Your Team

Who from your health center do you wish would have been engaged in these conversations?

Medical Provider/Medical Champion
Care Coordinators
QI

Moving forward, who would you want to be involved and able to support the work?

Dental Billing, Insurers
CMO (health center leadership)
Other health center team members

How do you ensure that the work you've put in becomes that habits and routines of the organization?

Add to workflow an quality calendar that reports monthly

Reimbursement of this care-level transformation

Huddles/daily or monthly meetings with health center personnel

Staffing/scheduling supplies, COVID considerations

Wrap Up & Next Steps

COrHT AIM: What we hoped to accomplish

By September 2021, participating health centers will gain experience in a prevention-focused, whole-person care model described in the *Three Domains Framework* by testing and implementing activities such as:

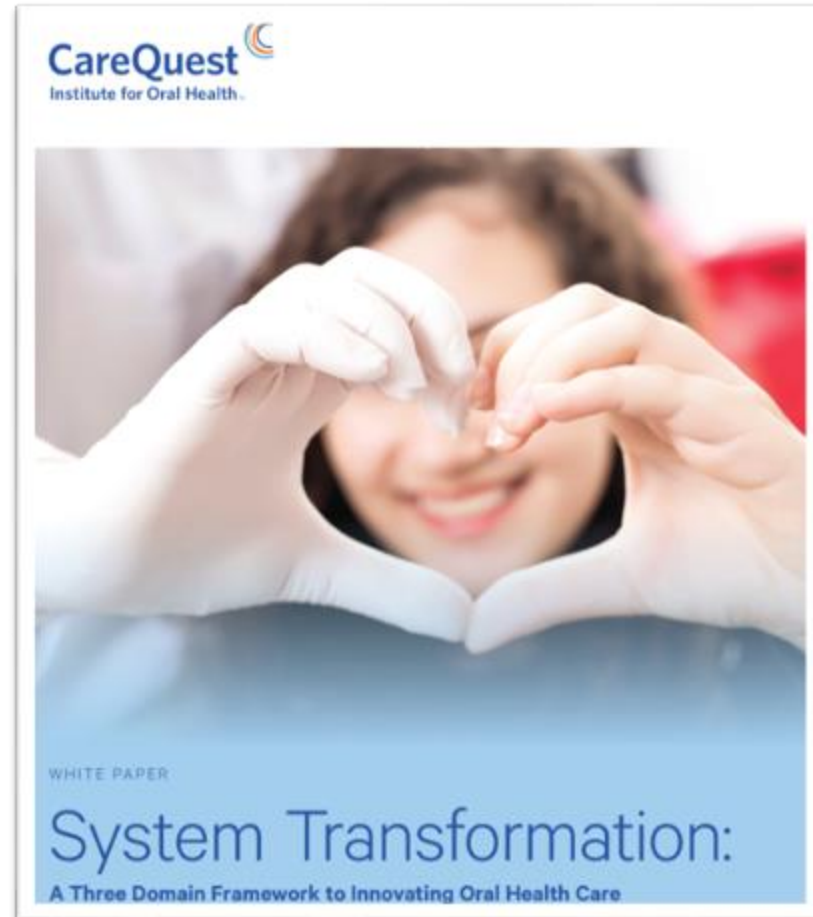

- Expand use of telehealth and minimally invasive approaches to prioritize prevention
- Risk assessment and stratification to enhance population health management
- Monitor operational and financial data to understand preparedness for a value-based model of care

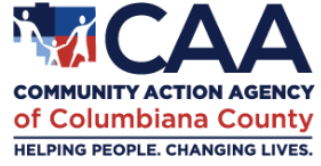

What we've learned from you all...

Challenges, opportunities and new ideas for operationalizing the Three Domains Framework

Thank you, transformation champions!

Staying Connected

Connect with your PCA

COrHT Community Hub

COrHT Change package
coming soon

Next Step: COrHT Endpoint survey

You'll receive an email with a link to the final COrHT Survey

Please complete one per team by June 23rd

Next Step: Data Collection and Reporting

You'll receive an email with:

1. Information about remaining data requirements and submission dates
2. Access to your teams' data dashboards

Diving deeper into the data, together!
